

Rother District Local Plan Site Identification Form

For official use only
Rec:
Ref:

This form is used to submit a site for consideration of its development potential, as part of Rother District Council's Housing and Employment Land Availability Assessment (HELAA). The HELAA is an evidence base document to support the Council's Local Plan update. The Council will consider sites for all types of housing, employment and renewables.

Sites will be assessed in accordance with national Planning Practice Guidance. The Council will assess sites that have a developable area of at least 0.25 hectares or 500sqm employment floorspace, and for residential, those that are capable of accommodating 5 or more dwellings.

The Council will also accept the submission of sites of any size that adjoin designated Development Boundaries. This will assist the Council in determining any future amendments to development boundaries and the capacity for growth in settlements. The current defined development boundaries can be located at: <https://policiesmap.rother.gov.uk/> (note that you may need to enable the various development boundaries in the layer selection panel).

In order to determine a site's availability, and to aid the Council in the assessment process, sites should only be submitted by the landowner or submitted with proof of the landowner's willingness for the site to be considered as part of this process.
